PROFESSIONAL SUMMARY

Junior Full-Stack Developer with a B.Sc. in Software Engineering and hands-on experience in MERN Stack and ASP.NET Core development. Experienced in designing and developing full-stack web applications, implementing authentication systems, building RESTful APIs, and working with relational and NoSQL databases. Completed a professional internship involving ASP.NET Core MVC, SQL Server, Entity Framework, and C#. Strong foundation in software engineering principles, database design, and modern web technologies. Experienced in using AI-assisted development tools such Claude.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, C#, Java, PHP, Dart, HTML5, CSS3
- Frontend: React.js, Tailwind CSS
- Backend: Node.js, Express.js, ASP.NET Core MVC
- Databases: MongoDB, PostgreSQL, MySQL, SQL Server
- Tools & Technologies: Git, GitHub, REST APIs, Entity Framework, Firebase
- Concepts: OOP, Data Structures & Algorithms, Authentication & Authorization, Database Design, SDLC
- **AI-Assisted Development:** ChatGPT, Claude, Prompt Design, Code Debugging, Technical Research

PROFESSIONAL EXPERIENCE

ASP.NET Developer Intern | Teranova Teknoloji, Turkey | Jul 2025 – Oct 2025

- Developed CRUD modules using ASP.NET Core MVC, C#, Entity Framework, and SQL Server.
- Contributed to backend development and API implementation for web applications.
- Assisted with database design, schema updates, and query optimization.
- Debugged and tested software fixes while collaborating with senior developers in an Agile environment.

P R O J E C T S

CRM / SaaS Dashboard | React.js, TypeScript, Tailwind CSS, Vite, Node.js, Express.js, PostgreSQL

A full-stack CRM platform for managing customer relationships, tracking sales activities, organizing tasks, and monitoring business performance.

- Developed a functional frontend with React and TypeScript and a backend using Node.js and Express.js.
- Implemented customer management, task management, and sales pipeline tracking.
- Built analytics dashboards to monitor business performance and implemented role-based access control.
- Integrated RESTful APIs with PostgreSQL for persistent data storage.

Collaborative Ordering Platform (Graduation Project) | MERN Stack

A collaborative purchasing platform that enables small store owners to combine product orders into bulk supplier purchases.

- Developed a full-stack application using React, Node.js, Express.js, and MongoDB, with authentication, authorization, and RESTful APIs.
- Built an administrative dashboard for managing products, users, and orders.
- Independently managed project analysis, design, implementation, testing, and documentation.

MERN Social Media Application | MongoDB, Express.js, React.js, Node.js

A social media platform where users can publish posts, interact through likes and comments, connect with other users, and explore their profiles.

- Implemented user authentication, profile management, and REST API architecture.
- Developed post creation, liking, and commenting functionality.
- Enabled users to add other users and view their profiles.

Flutter Firebase Shopping App | Flutter, Dart, Firebase

A mobile shopping application featuring user authentication and product management functionality.

- Developed the Flutter frontend and integrated Firebase authentication and product-management functionality.

E D U C A T I O N

B.Sc. in Software Engineering – Istanbul Okan University (2025)
GPA: 3.3 / 4.0 | Honor Student

C E R T I F I C A T I O N S

IBM Full-Stack JavaScript Developer Professional Certificate – Coursera (2025)

L A N G U A G E S

- Arabic – Native
- English – Fluent
- Turkish – Intermediate
